### **MESCoH**

Madison East Side Co-Housing (MESCoH) is a group of individuals seeking to establish, design and create an intentional community of homes and common spaces on the East Side of Madison at Union Corners, based on the co-housing model. Members of MESCoH have expressed interest in such features as green building, walkable neighborhoods, community gardens, outdoor common areas, and street design featuring traffic calming.

MESCoH invites like-minded individuals with shared values and a commitment to participatory decision-making to join us as we develop our vision and mission statement and move forward to create a welcoming and diverse community that is affordable, intergenerational, LGBTQ and senior-friendly, and dedicated to preserving the quality of life and vibrancy of our east side neighborhood.

MESCoH is a not-for-profit corporation.
